

## Ligno-DuoTec F and C - Pin/Pinless Meter Combined

Incorporates the most advanced microprocessor circuitry available from Lignomat for **pin and pinless** measuring technology. Individualized Wood Species Corrections for Pin AND Scan Mode. Furthermore, for each Wood Species the Ligno-DuoTec is calibrated for scanning at 1/4" AND 3/4" depth.

**Pin-Mode (>Lignometer KF)** Range: 4-99%, dependent upon Species Resolution of Read-out: 0.1%

- - 150 Individualized Wood Species

Temp Corrections DuoTecF: 0 to 210°F Temp Corrections DuoTecC: -15 to 95°C

Measuring Depth >Electr. E12: 1", 1.5", 2"

**Scan-Mode (>Ligno-Scanner SD)**: Range: 4-99%, dependent on Species Resolution of Read-out: 0.1%

- - 150 Individualized Wood Species

Unknown woods can be corrected by entering specific gravity (Weight/Volume).

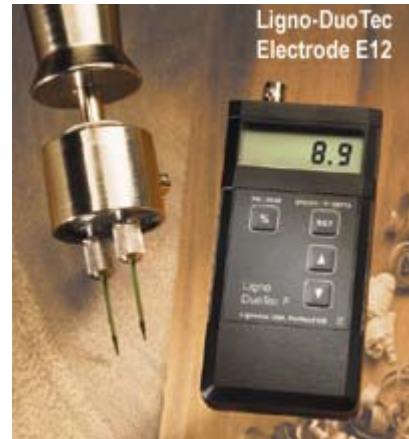

Dual Measuring Depth: 1/4" and 3/4"

### Description

Ligno-DuoTec F, BNC Cable, Electrode E10, Case S DT-0

Ligno-DuoTec F, BNC Cable, Electrode E12, Case M DT-2

Ligno-DuoTec F, E16 Cable, Electrode E16, Case S H-6

### Designed for Sturdiness and Ease of Operation:

Push buttons are positioned for one hand operation, while the other hand handles the electrode. All moisture readings are instantly displayed and corrected for the pre-set wood species and wood temperature. Like the Mini-Lignos, these sophisticated meters have proven to perform well in the rough mill environment with day-to-day usage.

### Multiple-Use Moisture Meter,

#### especially suited for the Hardwood Floor Installer

All your moisture meter needs in one unit. Ligno-DuoTec in Scan-Mode can quickly detect trouble areas in a floor without poking holes. Ligno-DuoTec in Pin-Mode helps pin-pointing the source of the problem. Both modes can check and compare waterborne finishes. the Electrode E12 allows measuring sub floors without removing the floorboards and can also be used for concrete by adding the Electrode E16. In Addition adding the EL pins (7" ) enables you to measure through Dryvit or Stucco. Ligno-DuoTec F and Electrode E12 and Electrode E16 and Thermo-Hygrometer in Case all Cables included are available as DTP-5 for 593.00. Ask for Introductory Specials.
